

Coast and Country Classic and Vintage Display Sponsored by the Lions Club of Looe ~ July 2013

Ten cars met at Looe for a very windy and cold car show. Members did very well to erect the tent in such cold weather but there was a lot of laughter although picnicking under it was still cold and Bev made the right choice to sit in the car! Some fivers did a quick tour of the carboot which was on the same field. We did our usual display around the show ring in convoy and were again joined by the shire horses which seems to be an annual tradition now, showing two types of horse power! Whilst in the ring drivers were presented with a show memento! The Ferrari and Maserati DB5 on display in the ring before the MX5s (and owned by the same man) were appreciated by the car enthusiasts among the group not that they were jealous or would swap their 5s! Vintage motor bikes and agricultural vehicles also displayed in the ring.
